PROFESSIONAL SUMMARY

Product Manager and former founder specializing in building and scaling 0→1 AI/ML and enterprise software products from concept to measurable business impact. Proven track record of shipping solutions with Salesforce and IBM, delivering $1.4M in annual client savings, scaling a GenAI MVP to 50,000+ beta users, driving enterprise workflow adoption to 80%, and bootstrapping multiple ventures generating over $250K in revenue.

EDUCATION

University of Massachusetts **Amherst, MA**
Master of Science in Engineering Management *Sept 2026 - May 2028*

Visvesvaraya Technological University **Bangalore, India**
Bachelor of Engineering in Computer Science - Artificial Intelligence & Machine Learning *Aug 2021 - Aug 2025*

TECHNICAL SKILLS

Product: Product Metrics, Product Roadmap, User Segmentation, Data Analysis, User Empathy, Competitor Analysis, Product Ideation, Wireframing, UI/UX Design, Product marketing, Agile Methodologies, A/B Testing, Feature Prioritization
Analytical & Technical Skills: Excel, Tableau, HTML, CSS, Javascript, Power BI, SQL, Python, R, Google Analytics, Mixpanel
Tools: Jira, Asana, Figma, UX Pilot, Granola AI, GitHub, Replit, Azure Cloud, Google Stitch, MS Office Suite, N8N

WORK EXPERIENCE

Techciti Software Consulting **Bangalore, India**
Associate Product Manager *Sept 2025 - Aug 2026*

- Directed the launch of an AI cost optimization product to resolve manual forecasting bottlenecks, driving AUD 1.4M in annual client savings by defining PRDs and leading engineering teams
- Drove adoption of automated financial workflows to 80% among enterprise users, cutting forecast errors by 33%, by prioritizing predictive ML models over legacy heuristics
- Boosted daily feature engagement by 25% by conducting generative user research and leveraging analytics to iterate on core UI/UX workflows and reduce user friction

Awwzo **Bangalore, India**
Product Management Intern *Sept 2024 - Dec 2024*

- Launched a centralized service vendor portal after 25+ user discovery interviews, streamlining workflows and reducing user onboarding time by 40%
- Elevated customer satisfaction and drove a 15% rise in platform retention by defining the MVP and implementing targeted features based on continuous user feedback loops
- Managed core Go-To-Market (GTM) initiatives enabling rapid market expansion by executing competitor analyses and establishing product-market fit metrics

Google **Bangalore, India**
AIML Intern *Jun 2024 - Aug 2024*

- Designed a RAG pipeline processing 100+ documents using document chunking, vector embeddings, and semantic search to retrieve relevant context and generate grounded responses
- Built an evaluation pipeline covering 150+ test cases to assess AI-generated outputs for accuracy, safety, and latency.

IBM **Bangalore, India**
AI & Cloud Intern *Sept 2023 - Dec 2023*

- Delivered 2+ enterprise ML tools, enhancing stakeholder data analytics capabilities by defining core product requirements and leveraging IBM Watson AI
- Optimized backend business workflows, driving a 15% reduction in operational costs by prioritizing and launching AI-driven cloud solutions over legacy processes

PROJECTS

- **Slack AI:** Delivered a zero-to-one MVP for Slack AI during a project collaboration with Salesforce, validating core generative AI use cases with 50,000+ beta testers and streamlining enterprise productivity workflows Project Link
- **Harness Obot**: A private, multi-model AI workspace (BYOK - Bring Your Own Key) with grounded knowledge retrieval (RAG), smart email drafting with optional Gmail IMAP inbox, and real-time web search. Project Link
